

December 11th Update

Our team has been working the past week on assembling the frame and acquiring parts needed to continue our work. Devon and Mitch have started to weld the tubing to form the frame. Nick and Cole have taken care of parts purchases and budgeting for our project.

Mitch attaching the back portion of the frame.

Cole grinding the welds to prepare the surface for attaching the roll bars.

Nick Soper setting in the center cross member and Mitch Vanden Brook attaching it to our car.
