

Team 2
Hours 3 and 6
September 17, 2010

Team members: Corey Jonet, Tyler Vaness, Khue Lor, Taylor Abts, Tyler Noel, Zach Tremi, and Justin Plog.

Week 1: This week we have taken the bodies off last year's cars, so we can use the measurements from the most successful cars to help us in the design of ours. From these measurements we have been able to create the back frame of the car in AutoCAD relatively easy. We have also started the construction of the front axle in AutoCAD. We have set up the lines on the ground in the shop to help us with the start of the frame.

Taking apart last year's car
